OVERVIEW

The landmark follow-up CD to *The Silent Shore*, a recording considered by many to be a "classic" in the modern ambient genre. *Frontier* quickly became a favorite of critics and connoisseurs alike and further established Robert Scott Thompson as a leading figure in the ambient and electronic music scene. Very limited supplies of this rare and hard to find CD are on hand at present and the disc is currently available in its original packaging as published by Oasis/Mirage in 1998.

"Absolutely wonderful...it takes the listener deeper into the realms of thought and imagination. I highly recommend getting this classic recording if you haven't already."

The Organization of Sound

"**Frontier** is Robert Scott Thompson's best and most accessible CD... the CD is totally and uniquely original."
