DESCRIPTION

At first glance he appears to be as harmless as an altar boy. However, the moment he opens his mouth you might think he has made a deal with the devil. A comedian known for his masterful build-up and in-your-face punchlines, Sean is sure to rile up any audience with his dark look at reality and society.

Who has Sean Rouse in the drunken comedian death pool? Stanhope does. And that's why the rest of us are losers. It's this very reason that we should take a break from our miserable lives and listen to Sean drop some knowledge before he's found face down in a pool of his own mushroom- and Jagermeister-induced stinky puke.

Describing himself as a "little feller" with a close resemblance to "Dennis the Menace all grown up," a crippled, arthritic hand he occasionally refers to as Slackjaw, a balding pattern attributed to his father's penchant for grabbing him by the hair to deck him in the face as a kid, and a coke habit that would make Keith Richards a little (more) twitchy, Sean Rouse of the Unbookables clearly has what the kids call a face for radio – or at least recorded comedy. It's a good thing, then, that he's taken the plunge with his debut CD "Spilled Milk"... and that he's got the shock and awe to back it up.

Filthy, depraved, and always clever, the verbal assault on "Spilled Milk," in fact, is so immediately arresting that it makes every future listening more rewarding. Once the utter surprise at the horrific things spewing forth from Rouse's drug addled brain wears off, you get to the holy grail: the famed second and even third layers of funny wherein you find that often his asides to the audience are as witty and well-turned as the backbones of his routine. Seemingly gamboling about his set in a tangential manner as though the audience is being treated to the podcast of his inner monologue, Rouse's call-backs are masterful, building the crowd's familiarity with his stand-up language quickly, only to appall his listeners anew each and every time. Don't let the smooth twangy accent fool you, the title "Spilled Milk" is clearly a warning: listen up, and don't cry, sissy.
